

NEW YORK STATE
OFFICE OF CHILDREN AND FAMILY SERVICES
HEALTH CARE PLAN
Day Care Center

PROGRAM NAME: Harbor Child Care @ Glen Cove	
LICENSE NUMBER: 730605	DATE HEALTH CARE PLAN SUBMITTED TO THE OFFICE OF CHILDREN AND FAMILY SERVICES (OCFS): / /

Note:

- It is the program’s responsibility to follow the health care plan and all day care regulations.
- OCFS must review and approve the health care plan as part of the licensing/registration process.
- OCFS must review and approve any changes or revisions to the health care plan before the program can implement the changes.
- A health care consultant must approve health care plans for programs that administer medications and for programs that care for infants and toddlers or moderately ill children.
- The program’s health care plan will be given to parents at admission and whenever changes are made, and the health care plan will be made available to parents upon request.
- The health care plan must be on site and followed by all staff/caregivers.
- The program’s anaphylaxis policy will be reviewed annually, and parents will be notified of the policy at admission and annually after that.
- If a conflict occurs between day care regulations and emergency health guidance promulgated by DOH in the interest of public health during a designated public health emergency, such emergency guidance must be followed.

Section 1: Child Health and Immunizations

The program cares for (**check all that apply; at least one MUST be selected**):

- Well children**
- Mildly ill children** who can participate in the routine program activities with minor accommodations. A child who meets any of the following criteria is defined as “mildly ill”:
 - The child has symptoms of a minor childhood illness that does not represent a significant risk of serious infection to other children.
 - The child does not feel well enough to participate comfortably in the usual activities of the program but is able to participate with minor modifications, such as more rest time.
 - The care of the child does not interfere with the care or supervision of the other children.
- Moderately ill children** who require the services of a health care professional but have been approved for inclusion by a health care provider to participate in the program. A child who meets any of the following criteria is defined as “moderately ill”:
 - The child’s health status requires a level of care and attention that cannot be accommodated in a child day care setting without the specialized services of a health professional.
 - The care of the child interferes with the care of the other children and the child must be removed from the normal routine of the child care program and put in a separate designated area in the program, but has been evaluated and approved for inclusion by a health care provider to participate in the program.

NOTE: The definitions above do not include children who are protected under the Americans with Disabilities Act (ADA). Programs must consider each child’s case individually and comply with the requirements of the ADA. For children with special health care needs, see Section 2.

Key criteria for exclusion of children who are ill

- The child is too ill to participate in program activities. ^
- The illness results in a need for care that is greater than the staff can provide without compromising the health and safety of other children; ^
- An acute change in behavior – this could include lethargy/lack of responsiveness, irritability, persistent crying, difficult breathing or having a quickly spreading rash; ^
- Fever:
 - Temperature above 101°F [38.3°C] orally, or 100°F [37.8°C] or higher taken axillary (armpit) or measured by an equivalent method **AND** accompanied by behavior change or other signs and symptoms (e.g., sore throat, rash, vomiting, diarrhea, breathing difficulty or cough). ^
 - Under six-months of age: Unexplained temperature above 100°F [37.8°C] axillary (armpit) or 101°F [38.3°C] rectally (caregivers are prohibited from taking a child’s temperature rectally) should be medically evaluated. ^
 - Under two-months of age: Any fever should get urgent medical attention. ^

(exclusion criteria continued next page)

LICENSEE INITIALS: EG	DATE: 1/18/23	HEALTH CARE CONSULTANT (HCC) INITIALS (if applicable): SW	DATE: 01 / 08 / 2023
--------------------------	------------------	--	-------------------------

(exclusion criteria continued from previous page)

- Diarrhea:
 - Diapered children whose stool is not contained in the diaper or if the stool frequency exceeds two or more stools above normal for the child. ^
 - Toilet-trained children if the diarrhea is causing soiled pants or clothing. ^
 - Blood or mucous in the stools not explained by dietary change, medication, or hard stools. ^
 - Confirmed medical diagnosis of salmonella, E. coli or Shigella infection, until cleared by the child's health care provider to return to the program. ^
- Vomiting more than two times in the previous 24-hours unless the vomiting is determined to be caused by a non-infectious condition and the child remains adequately hydrated. ^
- Abdominal pain that continues for more than two hours or intermittent pain associated with fever or other signs or symptoms of illness. ^
- Mouth sores with drooling unless the child's health care provider states that the child is not infectious. ^
- Active tuberculosis, until the child's primary care provider or local health department states child is on appropriate treatment and can return. ^
- Streptococcal pharyngitis (*strep throat or other streptococcal infection*), until 24-hours after treatment has started. ^
- Head lice, until after the first treatment (*note: exclusion is not necessary before the end of the program day*). ^
- Scabies, until treatment has been given. ^
- Chickenpox (varicella), until all lesions have dried or crusted (*usually six-days after onset of rash*). ^
- Rubella, until six-days after rash appears. ^
- Pertussis, until five-days of appropriate antibiotic treatment. ^
- Mumps, until five-days after onset of parotid gland swelling. ^
- Measles, until four-days after onset of rash. ^
- Hepatitis A virus infection, until the child is approved by the health care provider to return to the program. ^
- Any child determined by local health department to be contributing to the transmission of illness during an outbreak. ^
- Impetigo until treatment has been started. ^

^ Adapted from *Caring for Our Children: National Health and Safety Performance Standards; Guidelines for Early Care and Education Programs, 3rd Edition.*

LICENSEE INITIALS: EG	DATE: 1/18/23	HEALTH CARE CONSULTANT (HCC) INITIALS (if applicable): SW	DATE: 01 / 08 / 2023
--------------------------	------------------	--	-------------------------

Medical Statements and Immunizations

Upon enrollment, any child, except those in kindergarten or a higher grade, in the program will provide a written statement signed by a health care provider verifying that the child is able to participate in child day care and currently appears to be free from contagious or communicable diseases. A *Child in Care Medical Statement* for each child must have been completed within the 12-months preceding the date of enrollment. Form **OCFS-LDSS-4433**, *Child in Care Medical Statement* may be used to meet this requirement.

The program will accept a child who has not received all required immunizations only as allowed by regulation. The program will keep documentation that each child has received the immunizations required by New York State Public Health Law unless exempt by regulation.

How often are immunization records reviewed for each age group? **(check all that apply; at least one MUST be selected)**

- ◆ six-weeks to two-years: Weekly Monthly Quarterly Yearly
- ◆ two-years to five-years: Weekly Monthly Quarterly Yearly

Parents will be notified in the following way(s) when records indicate immunizations need to be updated: **(check all that apply)**

- Written notice
- Verbally

LICENSEE INITIALS: EL	DATE: 1/13/23	HEALTH CARE CONSULTANT (HCC) INITIALS (if applicable): SW	DATE: 01 / 08 / 2023
--------------------------	------------------	--	-------------------------

Section 2: Children with Special Health Care Needs

Children with special health care needs means children who have chronic physical, developmental, behavioral, or emotional conditions expected to last 12-months or more and who require health and related services of a type or amount beyond that required by children generally.

- Any child identified as a child with special health care needs will have a written Individual Health Care Plan that will provide all information needed to safely care for the child. This plan will be developed with the child’s parent and health care provider.
- Any child with a known allergy will have a written Individual Allergy and Anaphylaxis Emergency Plan attached to the Individual Health Care Plan that includes clear instructions of action when an allergic reaction occurs. Additionally, upon enrollment into the child care program, the parent/guardian will complete form **OCFS-LDSS-0792, Day Care Enrollment (Blue Card)** or an approved equivalent that will include information regarding the child(s) known or suspected allergies. This documentation will be reviewed and updated at least annually or more frequently as needed. The program may be required, as a reasonable accommodation under the Americans with Disabilities Act, to obtain approval to administer medication if the child needs medication or medical treatment during program hours.

The program may use (check all that apply; at least one **MUST** be selected):

- Form **OCFS-LDSS-7006, Individual Health Care Plan for a Child with Special Health Care Needs**
- Other: (please attach the program’s plan for individualized care)

Additional documentation or instruction may be provided.

Explain here: For children with Asthma, the program may use the Asthma Action Plan provided by the child's health care provider

The program may use (check all that apply; at least one **MUST** be selected):

- Form **OCFS-6029, Individual Allergy and Anaphylaxis Emergency Plan**
- Other: (please attach the program’s plan for individualized care)

Additional documentation or instruction may be provided.

Explain here: Food Allergies and Anaphylaxis Emergency Care Plan FORM
PROVIDED COURTESY OF FOOD ALLERGY RESEARCH & EDUCATION (FARE) (FOODALLERGY.ORG)

LICENSEE INITIALS: EG	DATE: 1/18/23	HEALTH CARE CONSULTANT (HCC) INITIALS (if applicable): SW	DATE: 01 / 08 / 2023
--------------------------	------------------	--	-------------------------

Section 3: Daily Health Checks

A daily health check will be done on each child when the child arrives at the program and whenever a change in the child’s behavior and/or appearance is noted. The child must be awake when the check is done, and the following procedure will be used (**check one; at least one MUST be selected**):

- See **Appendix A: Instructions for Daily Health Check**
- Other:

Explain here:

The daily health check will be documented. Check the form you will use to meet this requirement:

- Form **LDSS-4443, Child Care Attendance Sheet**
- Other: *(please attach form developed by the program)*

Staff will be familiar with the signs and symptoms of illness, communicable disease, and injury, as well as the exclusion criteria listed in the Health Care Plan in Section 1.

Staff and volunteers will be trained in preventing, recognizing, and responding to allergic reactions and anaphylaxis.

Staff will keep a current knowledge of the *New York State Department of Health’s list of communicable diseases (DOH-389)* accessible at: https://health.ny.gov/forms/instructions/doh-389_instructions.pdf

Children will be monitored throughout the day. Parents will be notified immediately of any change in the child’s condition or if the care of the child exceeds what the program can safely provide. If necessary, the program will make arrangements with the parents for obtaining medical treatment. If a parent cannot be reached or if the child’s condition warrants, emergency medical treatment will be obtained without delay by calling 911.

Any signs of illness including allergic reactions and anaphylaxis, communicable disease, injury and/or suspected abuse and maltreatment found will be documented and kept on file for each child in the following way (**check all that apply; at least one MUST be selected**):

- In each child’s file
- In a separate log
- Other:

Explain here:

LICENSEE INITIALS: 96	DATE: 1/8/23	HEALTH CARE CONSULTANT (HCC) INITIALS <i>(if applicable)</i> : SW	DATE: 01 / 08 / 2023
--------------------------	-----------------	--	-------------------------

The program will ensure that adequate staff are available to meet the needs of the ill child without compromising the care of the other children in the program.

Explain the procedures for caring for a child who develops symptoms of illness while in care.

Explain here: Decisions about caring for the child while awaiting parent/guardian pick-up will be made on a case-by-case basis providing care that is comfortable for the child considering factors such as the child's age, the surroundings, potential risk to others and the type of severity of symptoms the child is exhibiting. The child will be supervised by someone who knows the child well and who will continue to observe the child for new or worsening symptoms.

Mandated reporters who have reasonable cause to suspect a child in care is being abused or maltreated will take the following actions:

- 1) Immediately make or cause to be made an oral report to the **mandated reporter hotline (1-800-635-1522)**.
- 2) File a written report using Form **LDSS-2221A, Report of Suspected Child Abuse or Maltreatment** to the local Child Protection Services (CPS) within 48 hours of making an oral report.
- 3) After making the initial report, the reporting staff person must immediately notify the director or licensee of the center that the report was made.
- 4) The program must immediately notify the office upon learning of a serious incident, involving a child which occurred while the child was in care at the program or was being transported by the program.
- 5) Additional procedures (if any):

Explain here: Health Care Consultant

LICENSEE INITIALS: EL	DATE: 1/8/23	HEALTH CARE CONSULTANT (HCC) INITIALS (if applicable): SW	DATE: 01/08/2023
--------------------------	-----------------	--	---------------------

Section 4: Staff Health Policies

The program will operate in compliance with all medical statement requirements as listed in 418-1.11(b). Any staff person or volunteer with signs and symptoms of illness that match the exclusion criteria for children listed in this health care plan will not care for children.

Section 5: Infection Control Procedures

The program will use the procedures in the attached appendices to reduce the risk of infection or attach an alternate for each area (**check all that apply; at least one MUST be selected for each category**):

- Hand washing
 - Appendix B Other (attach)
- Diapering
 - Appendix C Other (attach)
- Safety precautions related to blood and bodily fluids
 - Appendix D Other (attach)
- Cleaning, disinfecting, and sanitizing of equipment and toys
 - Appendix E Other (attach)
- Gloving
 - Appendix F Other (attach)

LICENSEE INITIALS: EB	DATE: 1/8/23	HEALTH CARE CONSULTANT (HCC) INITIALS (if applicable): SW	DATE: 01 / 08 / 2023
---	--	--	-------------------------

Section 6: Emergency Procedures

If a child experiences a medical emergency, the program will obtain emergency medical treatment without delay by calling 911.

The director and all teachers must have knowledge of and access to children's medical records and all emergency information.

911 and the poison control telephone numbers must be conspicuously posted on or next to the program's telephone.

The program may use the following form to record emergency contact information for each child (**check one; at least one MUST be selected**):

- OCFS form: *Day Care Enrollment, OCFS-LDSS-0792* (Blue Card)
- Other: *(please attach form developed by the program)*

The program will keep current emergency contact information for each child in the following easily accessible location(s): (**check all that apply; at least one MUST be selected**):

- The emergency bag
- On file
- Other:

Explain here:

In the event of a medical emergency, the program will follow (**check one; at least one MUST be selected**):

- Medical Emergency (Appendix G)*
- Other: *(Attach)*

Additional emergency procedures *(if needed)*:

Explain here:

Section 7: First Aid Kit

First aid kits will be kept out of reach of children and restocked when items are used. The program will have at least one first aid kit.

The program's first aid kit(s) will be stored in the following area(s) in the program:
(It is recommended that a kit be taken on all trips off the program site and that a kit be kept in the emergency bag for use in the event of an emergency evacuation.)

Explain here: A first aid kit will be in each class in the emergency bag. The emergency bag in placed in an area for quick access but it is not accessible to children.

The following are recommended items that a first aid kit should contain, but is not limited to:

- o Disposable gloves, preferably vinyl
- o Sterile gauze pads of various sizes
- o Bandage tape
- o Roller gauze
- o Cold pack

LICENSEE INITIALS: EL	DATE: 1/18/23	HEALTH CARE CONSULTANT (HCC) INITIALS <i>(if applicable)</i> : SW	DATE: 01/08/2023
--------------------------	------------------	--	---------------------

List any additional items (or substitutions for the recommended items listed above) that will be stored in the first aid kit:

Staff will check the first aid kit contents and replace any expired, worn, or damaged items: (check all that apply)

- After each use
- Monthly
- Other:

Explain here:

The program will (check all that apply):

- Keep the following non-child-specific, over-the-counter topical ointments, lotions, creams, and sprays in the first aid kit: (Programs must have parental permission to apply before using.)

Explain here:

- Keep the following non-child-specific, over-the-counter medication in the first aid kit: (Programs that plan to store over-the-counter medication given by any route other than topical **must** be approved to administer medication and have all appropriate permissions as required by regulation before administering the medication to a child.)

Explain here: diphenhydramine, infant and children acetaminophen, infant and children Ibuprofen

- Keep non child specific epinephrine auto-injector medication (e.g., EpiPen®, AUVI-Q) in the first aid kit: (Programs must be approved to stock epinephrine auto-injectors and have a staff on site who has successfully completed the Office approved training as required by regulation before storing and administering the medication to a child).

Explain here: AUVI-Q 0.1 mg, 0.15mg, 0.3mg

- Keep the following types of child-specific medication (e.g., EpiPen®, asthma inhalers) in the first aid kit: (Programs **must** be approved to administer medication, with the exception of epinephrine auto-injectors, diphenhydramine in combination with the epinephrine auto-injector, asthma inhalers and nebulizers, and have all appropriate permissions as required by regulation, before storing and administering the medication to a child.)

Explain here:

The program must check frequently to ensure these items have not expired.

LICENSEE INITIALS: EU	DATE: 1/18/23	HEALTH CARE CONSULTANT (HCC) INITIALS (if applicable): SW	DATE: 01/08/2023
--------------------------	------------------	--	---------------------

Section 8: Program Decision on the Administration of Medication

The program has made the following decision regarding the administration of medication (check all that apply; at least one MUST be selected):

- The program **WILL** administer over-the-counter topical ointments, lotions and creams, and sprays, including sunscreen products and topically applied insect repellent. ***(Complete Sections 9-12, 22)**
- The program **WILL** administer epinephrine patient-specific auto-injectors, diphenhydramine in combination with the epinephrine auto-injector, asthma inhalers and nebulizers. ***(Complete Sections 9-12, 22)**
- The program **WILL** administer stock non-patient-specific epinephrine auto-injectors. **(Complete Section 16, Appendix J.)**
- The program **WILL** administer medications that require the program to have this health care plan approved by a health care consultant as described in **Sections 13 and 14. *(Complete Sections 9 and 13-22)**

If the program will **not** administer medication (other than over-the-counter topical ointments, lotions and creams, sprays, including sunscreen products and topically applied insect repellent and/or epinephrine auto-injectors, diphenhydramine in combination with the epinephrine auto-injector, asthma inhalers and nebulizers), explain how the needs of the child will be met if the child is taking medication that requires administration during program hours.

Explain here:

***Parent/Relative Administration**

A person who is a relative, at least 18 years of age (with the exception of the child's parents), who is within the third degree of consanguinity of the parents or step parents of the child, even if the person is an employee or volunteer of the program, may administer medication to the child - they are related to while the child is attending the program, even though the program is not approved to administer medication.

A relative within the third degree of consanguinity of the parents or step parents of the child includes: the grandparents of the child; the great-grandparents of the child; the great-great-grandparents of the child; the aunts and uncles of the child, including the spouses of the aunts and uncles; the great-aunts and great-uncles of the child, including the spouses of the great-aunts and great-uncles; the siblings of the child; and the first cousins of the child, including the spouses of the first cousins.

If medication is given to a child by a parent or a relative within the third degree of consanguinity of the parents or stepparents of the child during program hours, the dose and time of medication administration must be documented and may be documented in the following manner (check one; at least one MUST be selected):

- OCFS form: *Log of Medication Administration, OCFS-LDSS-7004*
- Other: (please attach form developed by the program)

LICENSEE INITIALS: EG	DATE: 1/8/23	HEALTH CARE CONSULTANT (HCC) INITIALS (if applicable): SW	DATE: 01 / 08 / 2023
--------------------------	-----------------	--	-------------------------

Section 9: Programs that WILL Administer Over-the-Counter Topical Ointments, Lotions and Creams, and Sprays, Including Sunscreen Products and Topically Applied Insect Repellant, and/or Epinephrine Auto-injectors, Diphenhydramine in Combination with the Epinephrine Auto-injector, Asthma Inhalers and Nebulizers.

Over-the-Counter Topical Ointments, Lotions and Creams, and Sprays Including Sunscreen Products and Topically Applied Insect Repellant (TO/S/R)

The program will have parent permission to apply any TO/S/R.

Any over the counter TO/S/R will be applied in accordance with the package directions for use. If the parent's instructions do not match the package directions, the program will obtain health care provider or authorized prescriber instructions before applying the TO/S/R.

All over the counter TO/S/R will be kept in its original container. All child specific TO/S/R will be labeled with the child's first and last names.

TO/S/R will be kept in a clean area that is inaccessible to children.

Explain where these will be stored: In the classroom in labeled storage bins that are high out of reach of children.

All leftover or expired TO/S/R will be given back to the child's parent for disposal. TO/S/R not picked up by the parent may be disposed of in a garbage container that is not accessible to children.

All over the counter TO/S/R applied to a child during program hours will be documented and maintained in the following way **(check all that apply; at least one MUST be selected)**:

- OCFS form *Log of Medication Administration*, **OCFS-LDSS-7004**
- On a child-specific log *(please attach form developed by the program)*
- Other: digital documentation that is shared with the child's parent at the end of the day.

Explain here:

LICENSEE INITIALS: EG	DATE: 1/18/23	HEALTH CARE CONSULTANT (HCC) INITIALS <i>(if applicable)</i> : SW	DATE: 01 / 08 / 2023
--------------------------	------------------	--	-------------------------

All observable side effects will be documented. Parents will be notified immediately of any observed side effects. If necessary, emergency medical services will be called.

The program will **(check all that apply)**:

- Apply over the counter TO/S/R, which parents supply for their child.
- Keep a supply of stock over the counter TO/S/R to be available for use on children whose parents have given consent. These include the following:

Explain here: Diaper cream

Parent permission will be obtained before any non-child specific over the counter TO/S/R will be applied. Parents will be made aware that the TO/S/R being applied is not child-specific and may be used by multiple children.

The program will adhere to the following infection control guidelines whenever using non child-specific TO/S/R:

- o Hands will be washed before and after applying the TO/S/R.
- o Care will be taken to remove the TO/S/R from the bottle or tube without touching the dispenser.
- o An adequate amount of TO/S/R will be obtained so it is not necessary to get more once the staff has started to apply the TO/S/R (*if additional TO/S/R must be dispensed after applying it to a child's skin, hands will be washed before touching the dispenser*).
- o Gloves will be worn when needed.
- o TO/S/R that may be contaminated will be discarded in a safe manner.

It is the program's obligation to protect the children in care from injury. Part of this obligation includes the application of TO/S/R according to parent permission.

Describe the program's procedure for protecting children in the absence of parental permission to apply TO/S/R, such as sunscreen or insect repellent:

Explain here: Encourage children to wear wide-brimmed hats. Have children wear child-safe sunglasses rated to block both UVA and UVB rays. Observe sun safety precautions when the heat index is high. Children will be encouraged to drink water. Minimize insect bites: Remove stagnant water sources on playgrounds and around the facility. Keep outdoor play locations away from insect prone areas.

LICENSEE INITIALS: SW	DATE: 1/18/23	HEALTH CARE CONSULTANT (HCC) INITIALS (if applicable): SW	DATE: 01 / 08 / 2023
--------------------------	------------------	--	-------------------------

Patient-Specific Epinephrine Auto-Injectors, Diphenhydramine in Combination with the Epinephrine Auto-Injector, Asthma Inhalers and Nebulizers.

Staff **NOT** authorized to administer medications may administer emergency care through the use of patient-specific epinephrine auto-injector devices, diphenhydramine when prescribed for use in combination with the epinephrine auto-injector, asthma inhalers or nebulizers, when necessary to prevent or treat anaphylaxis or breathing difficulty for an individual child, when the parent and the child's health care provider have indicated such treatment is appropriate.

In addition, the program will obtain the following:

- A written *Individual Health Care Plan for a Child with Special Health Care Needs*, **OCFS-LDSS-7006** must be submitted to meet this requirement. (See **Section 2: Children with Special Health Care Needs.**)
- Form **OCFS-6029**, *Individual Allergy and Anaphylaxis Emergency Plan* for children with a known allergy, and the information on the child's **OCFS-LDSS-0792**, *Day Care Enrollment* (Blue Card).
- An order from the child's health care provider to administer the emergency medication including a prescription for the medication. The *OCFS Medication Consent Form (Child Day Care Program)*, **OCFS-LDSS-7002** may be used to meet this requirement.
- Written permission from the parent to administer the emergency medication as prescribed by the child's health care provider. The *OCFS Medication Consent Form (Child Day Care Program)*, **OCFS-LDSS-7002** may be used to meet the requirement.
- Instruction on the use and administration of the emergency medication that has been provided by the child's parent, child's health care professional or a health care consultant.

Additionally:

- Staff who have been instructed on the use of the epinephrine auto-injector, diphenhydramine, asthma medication or nebulizer must be present during all hours the child with the potential emergency condition is in care and must be listed on the child's Individual Health Care Plan.
- The staff administering the epinephrine auto-injector, diphenhydramine, asthma medication or nebulizer must be at least 18-years old, unless the administrant is the parent of the child.
- Staff must immediately contact 911 after administering epinephrine.
- If an inhaler or nebulizer for asthma is administered, staff must call 911 if the child's breathing does not return to normal after its use.
- Storage, documentation of administration of medication and labeling of the epinephrine auto-injector, asthma inhaler and asthma nebulizer must be in compliance with all appropriate regulations.

Explain where these will be stored: Child prescribed emergency medications will be stored in the child's classroom in the emergency "to-go" bag which is labeled and inaccessible to children. All non-expired emergency medication is stored in the original package with parental permission and health provider instructions.

LICENSEE INITIALS: EL	DATE: 1/8/23	HEALTH CARE CONSULTANT (HCC) INITIALS (if applicable): SW	DATE: 01/08/2023
--------------------------	-----------------	--	---------------------

School-Age Children Exemptions for Carrying and Administering Medication

When a program has agreed to administer an inhaler to a child with asthma or other diagnosed respiratory condition, or a patient-specific epinephrine auto-injector for anaphylaxis, a school-age child may carry and use these devices during day care hours if the program secures written permission of such use of a duly authorized health care provider or licensed prescriber, and written parental consent, and completes an Individual Health Care Plan for the child.

The Individual Health Care Plan, parental consent and health care provider or licensed prescriber consent documenting permission for a school-age child to carry an inhaler or patient-specific epinephrine auto-injector must be maintained on file by the program.

Sections 10-12 must be completed ONLY if the program plans to administer over the counter topical ointments, lotions and creams, and sprays, including sunscreen products and topically applied insect repellent and/or patient specific epinephrine auto injector, diphenhydramine in combination with the patient specific epinephrine auto injector, asthma inhalers and nebulizers, and NOT administer any other medication.

Section 10: Confidentiality Statement

Information about any child in the program is confidential and will not be given to anyone except OCFS, its designees or other persons authorized by law.

Health information about any child in the program can be given to the social services district upon request if the child receives a day care subsidy or if the child has been named in a report of suspected child abuse or maltreatment or as otherwise allowed by law.

Section 11: Americans with Disabilities Act (ADA) Statement

The program will comply with the provisions of the Americans with Disabilities Act. If any child enrolled in the program now or in the future is identified as having a disability covered under the Americans with Disabilities Act, the program will assess the ability of the program to meet the needs of the child. If the program can meet the needs of the child without making a fundamental alteration to the program and the child will need regular or emergency medication, the program will follow the steps required to have the program approved to administer medication.

Section 12: Licensee Statement

It is the program's responsibility to follow the health care plan and all day care regulations.

OCFS must review and approve the health care plan as part of the licensing process. OCFS must review and approve any changes or revisions to the health care plan before the program can implement the changes.

The program's health care plan will be given to parents at admission and whenever changes are made, and the health care plan will be made available to the parents upon request.

The program's anaphylaxis policy will be reviewed annually, and parents will be notified of the policy at admission and annually after that.

Day Care Program's Name (please print): Harbor Child Care @ Glen Cove		License #: 730605
Authorized Signature:	Authorized Name (please print):	Date: / /

LICENSEE INITIALS: SL	DATE: 1/18/23	HEALTH CARE CONSULTANT (HCC) INITIALS (if applicable): SW	DATE: 01/08/2023
--------------------------	------------------	--	---------------------

Only complete Sections 13-22 if the program will administer medication.

Section 13: For Programs that WILL Administer Medication

The program will administer prescription and non-prescription medication by all routes covered in the Medication Administration Training (MAT) course (*oral, topical, eye, ear, and inhaled medications, medicated patches, and epinephrine via a patient-specific epinephrine auto-injector device*).

The program will administer medication in accordance with the OCFS child day care regulations. Only a staff person who has completed the appropriate training or has appropriate licensure and is listed as a medication administrant in this health care plan will be permitted to administer medication in the program, with the exception of over-the-counter topical ointments, lotions and creams, and sprays, including sunscreen products and topically applied insect repellent, and/or emergency medications—*patient-specific epinephrine auto-injectors, diphenhydramine when prescribed in combination with the epinephrine auto-injector, asthma inhalers and nebulizers.*

Section 14: Authorized Staff to Administer Medication

Appendix H (following the instructions in **Section 14** must be completed if the program plans to administer medication).

Any individual listed in **Appendix H** as a medication administrant is approved to administer medication using the following routes: topical, oral, inhaled, eye and ear, medicated patches and using a patient-specific epinephrine auto-injector device.

If a child in the program requires medication rectally, vaginally, by injection or by another route not listed above, the program will only administer such medication in accordance with the child care regulations.

Any individual listed in **Appendix H**, as trained to administer non-child specific, stock epinephrine auto-injector can only dispense this medication if they meet the additional training requirements outlined in **Appendix J**.

To be approved to administer medication, other than over-the-counter topical ointments, lotions and creams, and sprays, including sunscreen products and topically applied insect repellent, all individuals listed in the health care plan must be at least 18-years of age and have a valid:

- Medication Administration Training (MAT) certificate.
- Cardiopulmonary Resuscitation (CPR) certificate, which covers all ages of children the program is approved to care for as listed on the program’s license.
- First aid certificate that covers all ages of children the program is approved to care for as listed on the program’s license.
- OR—
- Exemption from the training requirements as per regulation.

The individual(s) listed in the health care plan as medication administrant(s) may only administer medication when the medication labels, inserts, instructions, and all related materials are written in the language(s) in which the medication administrant(s) is literate.

All medication administrant(s) will match the "Five Rights" (child, medication, route, dose, and time) in accordance with regulations and best practice standards whenever administering medication.

--------------------------	-----------------	--	-------------------------

Section 15: Forms and Documentation Related to Medication Administration

All medication consents and medication logs will be kept in the following location:

- Child's file
- Medication logbook
- Other:

Explain here:

Medication consent form (**check all that apply; at least one MUST be selected**):

- The program will accept permission and instructions to administer medication. The OCFS form *Medication Consent Form (Child Day Care Program)*, **OCFS-LDSS-7002** may be used to meet this requirement.
- Permission and instructions NOT received on the OCFS form will be accepted on a health care provider's document on the condition that the required medication-related information is complete.
- Other: *(please attach form developed by the program)*

Medication consent forms for ongoing medication must be renewed as required by regulation. How often will you review written medication permissions and instructions to verify they are current and have not expired?

Explain here: Every time prior to administering the medication to the child.

All medication administered to a child during program hours will be documented.

The program uses the following form to document the administration of medication during program hours (**check one; at least one MUST be selected**):

- OCFS form *Log of Medication Administration*, **OCFS-LDSS-7004**
- Other *(please attach form developed by the program)*

All observable side effects will be documented. Parents will be notified immediately of any observed side effects. If necessary, emergency medical services will be called.

The program will document whenever medication is not given as scheduled. The date, time, and reason for this will be documented. Parents will be notified immediately. If the failure to give medication as scheduled is a medication error, the program will follow all policies and procedures related to medication errors. (**See Section 17: Medication Errors.**)

LICENSEE INITIALS: GG	DATE: 1/18/23	HEALTH CARE CONSULTANT (HCC) INITIALS (if applicable): SW	DATE: 01 / 08 / 2023
--------------------------	------------------	--	-------------------------

Verbal Permissions and Instructions

The program’s policy regarding the acceptance of verbal permission and instructions when a parent is not able to provide the program with written permission and instructions is as follows (**check one; at least one MUST be selected**):

- The program **WILL NOT** accept verbal permission or instructions. All permission and instructions must be received in writing.
- The program **WILL** accept verbal permission from the parent and verbal instructions from the health care provider only to the extent permitted by OCFS regulation. *(Only those individuals approved in the health care plan to administer medication will accept verbal permission and instructions for all medication except over-the-counter topical ointments, lotions and creams, and sprays, including sunscreen products and topically applied insect repellent.)*

If the program **WILL** accept verbal permissions and verbal instructions, the program will document the verbal permission and instructions received and the administration of the medication. The following form may be used to meet this requirement (**check one; at least one MUST be selected**):

- OCFS form *Verbal Medication Consent Form and Log of Administration*, **OCFS-LDSS-7003**
- Other: *(please attach form developed by the program)*

Section 16: Stocking, Handling, Storing and Disposing of Medication

All child-specific medication must be properly labeled with the child's first and last name and be accompanied by the necessary parent permission and, when applicable, health care provider instructions in accordance with OCFS regulations before it will be accepted from the parent.

Non-child-specific, over-the-counter medication (**check one; at least one MUST be selected**):

- Will not** be stocked at the program.
- Will** be stocked at the program. *(The procedure for stocking this medication must comply with regulation.)*

Non-child-specific epinephrine auto-injector medication (**check one; at least one MUST be selected.**)

- Will not be stocked at the program
- Will be stocked at the program (the procedure for stocking this medication must comply with regulation)

All medication will be kept in its original labeled container.

Medication must be kept in a clean area that is inaccessible to children. Explain where medication will be stored. Note any medications, such as epinephrine auto-injectors or asthma inhalers, that may be stored in a different area.

Explain here: In the Director's Office

Medication requiring refrigeration will be stored (**check all that apply; at least one MUST be selected**):

- In a medication-only refrigerator located: Director's office
- In a food refrigerator in a separate leak-proof container that is inaccessible to children.

Controlled Substances

All medications with a pharmacy label identifying the contents as a controlled substance are regulated by the federal Drug Enforcement Agency. These medications will be: **(check all that apply; at least one MUST be selected)**:

- Stored in a locked area with limited access.
- Counted when receiving a prescription bottle from a parent or guardian.
- Counted each day if more than one person has access to the area where they are stored.
- Counted before being given back to the parent for disposal.
- Other:

Explain here:

Explain where controlled substances will be stored and who will have access to these medications:

Explain here: Director's office. Only staff certified in MAT will have access

Expired Medication

The program will check for expired medication **(check one; at least one MUST be selected)**:

- Weekly
- Monthly
- Other:

Explain here: Prior to administration

Medication Disposal

All leftover or expired medication will be given back to the child's parent for disposal. Medication not picked up by the parent may be disposed of in a safe manner. Stock medication will be disposed of in a safe manner. Stock epinephrine auto-injector devices will be disposed of as outlined in **Appendix J**.

Section 17: Medication Errors: COMPLETE THIS SECTION IF THE PROGRAM WILL ADMINISTER ANY MEDICATION

The parent must be notified immediately and OCFS must be notified within 24-hours of any medication administration errors. Notification to OCFS must be reported on form **OCFS-LDSS-7005, Medication Error Report** provided by OCFS or on an approved equivalent. The program will maintain confidentiality of all children involved.

When any medication error occurs, the program:

- May encourage the child’s parent to contact the child’s health care provider when the error occurs.
- Will notify OCFS as soon as possible, but no later than 24-hours of any medication error.
- Will complete the OCFS form *Medication Error Report*, **OCFS-LDSS-7005** or approved equivalent, to report all medication errors that occur in the program. If more than one child is involved in the error, the program will complete the *Medication Error Report Form*, **OCFS-LDSS-7005** for each child involved.

In addition, the program will notify these additional people (e.g., the program's Health Care Consultant). If no additional notifications, put NA in this section.

List here: NA

Section 18: Health Care Consultant Information and Statement

Section 18 must be completed by the Health Care Consultant (HCC) if the program will administer any medication and/or for programs offering care to infants and toddlers or moderately ill children.

HCC Information:

Name of HCC (Please print clearly): STACEY L WHITE, RN		
Profession: (An HCC must have a valid NYS license to practice as a physician, physician assistant, nurse practitioner or registered nurse.) Check all that apply; at least one MUST be selected:	<input type="checkbox"/> Physician	License number: Exp. Date: / /
	<input type="checkbox"/> Physician Assistant	License number: Exp. Date: / /
	<input type="checkbox"/> Nurse Practitioner	License number: Exp. Date: / /
	<input checked="" type="checkbox"/> Registered Nurse	License number: 399433 Exp. Date: 10 / 31 / 2024

As the program’s Health Care Consultant, I will:

- Review and approve the program’s health care plan. My approval of the health care plan indicates that the policies and procedures described herein are safe and appropriate for the care of the categories of children in the program.
- Notify the program if I revoke my approval of the health care plan. If I choose to do so, I may also notify the New York State Office of Children and Family Services (OCFS) of this revocation at **1-800-732-5207** (or, in New York City, I may contact the local borough office for that program) or send written notification to OCFS.
- Notify the program immediately if I am unable to continue as the HCC of record.

LICENSEE INITIALS: SW	DATE: 1/8/23	HEALTH CARE CONSULTANT (HCC) INITIALS (if applicable): SW	DATE: 01 / 08 / 2023
--------------------------	-----------------	--	-------------------------

In addition, as the program's Health Care Consultant, I will:

- Verify that all staff authorized to administer medication have the necessary professional credentials or have successfully completed all required trainings as per the NYS OCFS day care regulations (MAT, age-appropriate CPR and first aid training, emergency medication, Epinephrine Auto-Injector).

Other:

Explain here:

Health Care Consultant Review of Health Care Plan

For programs offering administration of medication, the program's Health Care Consultant (HCC) must visit the program at least once a year. For programs offering care to infants and toddlers or moderately ill children that are not otherwise administering medication, the program's HCC must visit the program at least once every two years. This visit will include:

- A review of the health care policies and procedures.
- A review of documentation and practice.
- An evaluation of the program's ongoing compliance with the Health Care Plan (HCP) and policies.

HCP review date	HCC Signature

I approve this Health Care Plan as written as of the date indicated below my signature:

Health Care Consultant Signature: <i>Stacey L White, RN</i>
Health Care Consultant Name (please print): STACEY WHITE, RN
Date: 01 / 08 / 2023

 Child Care Health Consultant of NY
 Stacey L White, RN
 NPI # 1295063014/ NY 399433
 Aspire 14998

LICENSEE INITIALS: <i>EW</i>	DATE: <i>1/8/23</i>	HEALTH CARE CONSULTANT (HCC) INITIALS (if applicable): SW	DATE: 01 / 08 / 2023
---------------------------------	------------------------	--	-------------------------

Section 19: Confidentiality Statement

Information about any child in the program is confidential and will not be given to anyone except OCFS, its designees or other persons authorized by law.

Health information about any child in the program will be given to the social services district upon request if the child receives a day care subsidy or if the child has been named in a report of suspected child abuse or maltreatment or as otherwise allowed by law.

Section 20: Americans with Disabilities Act (ADA) Statement for Programs

The program will comply with the provisions of the Americans with Disabilities Act. If any child enrolled in the program now or in the future is identified as having a disability covered under the Americans with Disabilities Act, the program will assess the ability of the program to meet the needs of the child without making a fundamental alteration to the program and the child will need regular or emergency medication, the program will follow the steps required to have the program approved to administer medication.

Section 21: Licensee Statement

It is the program’s responsibility to follow the health care plan and all day care regulations.

The program's health care plan will be given to parents at admission and whenever changes are made, and the health care plan will be made available to parents upon request.

The program's anaphylaxis policy will be reviewed annually, and parents will be notified of it at admission and annually after that.

As provided for in Section 18, the program will have a Health Care Consultant (HCC) of record who will review and approve the policies and procedures described in this health care plan as appropriate for providing safe care for children. The HCC will have a valid NYS license to practice as a physician, physician assistant, nurse practitioner or registered nurse.

The program will notify the HCC and OCFS of all new staff approved to administer medication and have the health care consultant review and approve their certificates before the individual is allowed to administer medication to any child in day care.

The program will notify OCFS immediately if the health care plan is revoked for any reason by the Health Care Consultant.

A program authorized to administer medication, which has had the authorization to administer medication revoked, or otherwise loses the ability to administer medication, must advise the parent of every child in care before the next day the program operates that the program no longer has the ability to administer medication.

The Health Care Consultant and OCFS must review and approve the health care plan as part of the licensing process. The program must document in **Appendix I** and notify OCFS of any change in the HCC of record. If the HCC terminates their relationship with the program, the program must notify OCFS and will have 60-days to obtain a new HCC. The new HCC must also review and approve the Health Care Plan. If the program does not obtain approval of the Health Care Plan by the new HCC within 60-days, the program will no longer be able to administer medication.

The HCC and OCFS must review and approve any changes or revisions to the health care plan before the program can implement the changes, including additions or changes to individuals listed in the health care plan as medication administrant(s). The program will notify the HCC and OCFS to changes in medication administrant credentials and the termination of medication administrant(s) at the program including MAT, emergency medications and stock epinephrine auto-injectors.

Once the Health Care Consultant and OCFS approve the health care plan, the program will notify parents of the health care plan.

Day Care Program's Name (please print): Harbor Child Care @ Glen Cove		License #: 730605
Authorized Signature: 	Authorized Name (please print): Erica Diddens	Date: 1/8/23

Section 22: Training

All child day care personnel must be trained in the program’s Health Care Plan and policies including a training program for child day care personnel in screening and identification of children with allergies, how to prevent, recognize and respond to food and other allergic reactions and anaphylaxis, strategies to reduce risk of exposure to allergic triggers, how the program will handle anaphylaxis episodes.

Staff/volunteers will be trained in the following method(s) (**check all that apply; at least one MUST be selected**):

- Orientation upon hire
- Staff meetings
- Scheduled professional development.

Communication plan for intake and dissemination of information among staff and volunteers regarding children with food or other allergies (including risk reduction) will include (**check all that apply; at least one MUST be selected**):

- Posting in program
- Staff meetings
- Other

Explain here:

The program will routinely monitor to ensure new staff/volunteers are receiving the training outlined above in the following manner (**check all that apply; at least one MUST be selected**):

- File review
- Staff meetings
- Other

Explain here:

Appendix A:

Instructions for Doing a Daily Health Check

A daily health check occurs when the child arrives at the program and whenever a change in the child's behavior and/or appearance is noted. The child must be awake so an accurate assessment can be done. Check the following while at the child's level so you can interact with the child when talking with the parent:

1. Child's behavior: is it typical or atypical for time of day and circumstances?
2. Child's appearance:
 - Skin: pale, flushed, rash (*Feel the child's skin by touching affectionately.*)
 - Eyes, nose, and mouth: note color; are they dry or is there discharge? Is child rubbing eye, nose, or mouth?
 - Hair (*In a lice outbreak, look for nits within ¼" of the scalp.*)
 - Breathing: normal or different; cough
3. Check with the parent:
 - How did the child seem to feel or act at home?
 - Sleeping normally?
 - Eating/drinking normally? When was the last time child ate or drank?
 - Any unusual events?
 - Bowels and urine normal? When was the last time child used toilet or was changed?
 - Has the child received any medication or treatment?
4. Any evidence of illness or injury since the child was last participating in child care?
5. Any indications of suspected child abuse or maltreatment?

Document that the daily health check has been completed. **LDSS-4443**, *Child Care Attendance Sheet* may be used to meet this requirement.

Any signs of illness, communicable disease, injury and/or suspected abuse and maltreatment found will be documented and kept on file for each child in accordance with **Section 3: Daily Health Checks**.
